

Letts Road Connector Study Public Open House

September 12, 2023
3:00pm – 5:00pm

Larkin Township Hall
3016 N. Jefferson Rd
Midland, MI 48642

Project Information:

Rowe Professional Services Company, on behalf of the Midland County Road Commission, is conducting a study of the Letts Road corridor to evaluate the potential redevelopment of a through roadway connecting Jefferson Road to Waldo Road.

The study will review impacts to adjacent residences, businesses, properties, and the environment in addition to the operations of the surrounding transportation network. The community will have the opportunity to learn about and participate in the development of this project. Conceptual designs and alternatives will be developed that seek to enhance vehicle and non-motorized flow, improve safety, and create a functional corridor that improves connectivity in Larkin Township, Midland County, and the Great Lakes Bay Region.

Future public meetings will follow as the study progresses.
