

POLICY

NUMBER: **100**
SECTION: **100.18**

SUBJECT: **SPEED/NO PARKING CONTROL ZONES**

PROCEDURE:

Formal request in written form are directed to the County Road Commission by the Township Board. The Road Commission in cooperation with the Michigan Department of State Police performs a study and review of the proposed area as set forth in the request for the purpose of establishing or denial of a Control Order from Lansing.

A study of the accident history by numbers of, types and frequency are reviewed. Study of the frontal property along the road as to type and usage, etc. are made. Traffic counts are taken to determine volumes of traffic and to determine during which periods of the day the traffic is spread to by counts. Actual speed of existing vehicles using the road is recorded by an unmarked State Police car using electronic equipment or by other approved electronic devices. The geometric of the roadway are considered also. As a general rule very few requests have been able to qualify for a Traffic Control Order.
